

Email: How do I add new email addresses/mailboxes to my domain?

Please send an email to hosting@elegantlogic.com.au, and provide us with:

- the mailbox name/s you wish to add (user@yourdomain.com)

- the password you want to use

Note that if you require large numbers of mailboxes (e.g. more than 10), then there may be a charge for setting them up. We will discuss this with you first.

Unique solution ID: #1002
