

## *Subdomains & Pointers: How do I add a subdomain to my domain hosted with you?*

Please send an email to [hosting@elegantlogic.com.au](mailto:hosting@elegantlogic.com.au), and include:

- The full subdomain you want setup (e.g. sub.yourdomain.com)
  
- The folder in your site you want this pointed to, or the IP address you want it to point to.

***Note there is a AU\$5 charge for each subdomain you want setup.***
